UNIT FINAL TEST SHEETS

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · Based on the Personalized System for Instruction (PSI)

General instructions

1. Teachers use these sheets to assess students who have passed Stages 1, 2, and 3 of a unit (the unit final test in the PSI model).
2. Prepare the equipment and area as described under "Test preparation" for each unit. Demonstrate the skill once; the student then performs 1 practice trial and 2 scored trials (T1 and T2).
3. Observe every criterion in every trial. Write 1 if the criterion is observed and 0 if it is not.
4. Add up the score, then calculate the grade: Grade = Score ÷ Maximum score × 100 (rounded).
5. Record the result: M = Mastered (grade ≥ 75), F = Fair, retest (70–74), R = Remedial (< 70). For F and R, write down the criteria not yet observed as the focus for further practice.
6. After the lesson, enter the grade and test date in the DILEMATORS app via Assessment Management → Final Test. The Good/Fair/Needs Improvement label appears automatically (Good = M, Fair = F, Needs Improvement = R).

Unit summary

Unit	Unit name	No. of criteria	Maximum score	Source of criteria
1	Bouncing	3	6	Adapted from the TGMD-3 one-hand stationary dribble skill (Ulrich, 2019).
2	Catching	3	6	Adapted from the TGMD-3 two-hand catch skill (Ulrich, 2019).
3	Dribbling	4	8	Adapted from the TGMD-3 (Ulrich, 2019).
4	Kicking	4	8	Adapted from the TGMD-3 kick a stationary ball skill (Ulrich, 2019).
5	Striking	5	10	Adapted from the TGMD-3 two-hand strike of a stationary ball skill (Ulrich, 2019).
6	Throwing	4	8	Adapted from the TGMD-3 overhand throw skill (Ulrich, 2019).

Important notes

- The criteria for Bouncing, Catching, Kicking, Striking, and Throwing are the researcher's paraphrase and adaptation of the performance criteria of the Test of Gross Motor Development-Third Edition (TGMD-3). Check them against the official TGMD-3 manual before use.
- The mastery threshold of 75 is the PSI mastery criterion set by the researcher, not a TGMD-3 norm. These sheets do not replace the standard TGMD-3 protocol for research pretest-posttest.
- The Dribbling (feet) rubric was developed by the researcher because foot dribbling is not part of the TGMD-3. It must be validated by experts (e.g., using Aiken's V) before use.
- Distances, ball sizes, and equipment may be adjusted to the school's conditions, as long as they are the same for all students and recorded.

UNIT 3 FINAL TEST SHEET: DRIBBLING (FEET)

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · PSI-based · Primary School

Class / School		**Test date**	
Assessor		**Test no. (circle)**	1 2 3 4

Test preparation

- **Equipment:** Small soccer ball (size 3-4).
- **Equipment:** 5 cones placed in a zig-zag about 1.5 m apart.
- **Equipment:** A start line and a finish line about 10 m apart.
- **Area and procedure:** The student starts at the start line, dribbles the ball in a zig-zag through the cones, then stops the ball on the finish line with the sole of the foot.
- **Instruction:** "Dribble the ball through all the cones, then stop it on the finish line with the sole of your foot."
- **Trials:** the assessor demonstrates once, the student performs 1 practice trial (not scored), then 2 scored trials (T1 and T2).

Code	Performance criteria (score 1 if observed, 0 if not observed)
C1	Touches the ball with the inside or outside of the foot, not with the toes.
C2	Keeps the ball close to the feet (less than one step away) while dribbling.
C3	Lifts the eyes forward from time to time instead of looking down at the ball the whole time.
C4	Turns around the cones without losing the ball, then stops the ball with the sole of the foot.

Grade = Score ÷ 8 × 100 (rounded). Result: M = Mastered (≥ 75) · F = Fair, retest (70-74) · R = Remedial (< 70)
