UNIT FINAL TEST SHEETS

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · Based on the Personalized System for Instruction (PSI)

General instructions

1. Teachers use these sheets to assess students who have passed Stages 1, 2, and 3 of a unit (the unit final test in the PSI model).
2. Prepare the equipment and area as described under "Test preparation" for each unit. Demonstrate the skill once; the student then performs 1 practice trial and 2 scored trials (T1 and T2).
3. Observe every criterion in every trial. Write 1 if the criterion is observed and 0 if it is not.
4. Add up the score, then calculate the grade: Grade = Score ÷ Maximum score × 100 (rounded).
5. Record the result: M = Mastered (grade ≥ 75), F = Fair, retest (70–74), R = Remedial (< 70). For F and R, write down the criteria not yet observed as the focus for further practice.
6. After the lesson, enter the grade and test date in the DILEMATORS app via Assessment Management → Final Test. The Good/Fair/Needs Improvement label appears automatically (Good = M, Fair = F, Needs Improvement = R).

Unit summary

Unit	Unit name	No. of criteria	Maximum score	Source of criteria
1	Bouncing	3	6	Adapted from the TGMD-3 one-hand stationary dribble skill (Ulrich, 2019).
2	Catching	3	6	Adapted from the TGMD-3 two-hand catch skill (Ulrich, 2019).
3	Dribbling	4	8	Adapted from the TGMD-3 (Ulrich, 2019).
4	Kicking	4	8	Adapted from the TGMD-3 kick a stationary ball skill (Ulrich, 2019).
5	Striking	5	10	Adapted from the TGMD-3 two-hand strike of a stationary ball skill (Ulrich, 2019).
6	Throwing	4	8	Adapted from the TGMD-3 overhand throw skill (Ulrich, 2019).

Important notes

- The criteria for Bouncing, Catching, Kicking, Striking, and Throwing are the researcher's paraphrase and adaptation of the performance criteria of the Test of Gross Motor Development-Third Edition (TGMD-3). Check them against the official TGMD-3 manual before use.
- The mastery threshold of 75 is the PSI mastery criterion set by the researcher, not a TGMD-3 norm. These sheets do not replace the standard TGMD-3 protocol for research pretest-posttest.
- The Dribbling (feet) rubric was developed by the researcher because foot dribbling is not part of the TGMD-3. It must be validated by experts (e.g., using Aiken's V) before use.
- Distances, ball sizes, and equipment may be adjusted to the school's conditions, as long as they are the same for all students and recorded.

Reference: Ulrich, D. A. (2019). Test of Gross Motor Development (3rd ed.). PRO-ED.

UNIT 1 FINAL TEST SHEET: BOUNCING

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · PSI-based · Primary School

Class / School		**Test date**	
Assessor		**Test no. (circle)**	1 2 3 4

Test preparation

- **Equipment:** Rubber ball or small basketball, about 20–25 cm in diameter, firmly inflated.
- **Equipment:** A flat, hard floor or court surface.
- **Area and procedure:** The student stands on a marked spot (a chalk or tape circle about 1 m in diameter).
- **Instruction:** "Bounce the ball four times with one hand without moving your feet, then catch the ball."
- **Trials:** the assessor demonstrates once, the student performs 1 practice trial (not scored), then 2 scored trials (T1 and T2).

Code	Performance criteria (score 1 if observed, 0 if not observed)
C1	Contacts the ball with one hand at about waist height.
C2	Pushes the ball with the fingertips instead of slapping it with the palm.
C3	Keeps control of the ball for at least 4 consecutive bounces without moving the feet to chase it.

Adapted from the TGMD-3 one-hand stationary dribble skill (Ulrich, 2019).

Grade = Score ÷ 6 × 100 (rounded). Result: M = Mastered (≥ 75) · F = Fair, retest (70–74) · R = Remedial (< 70)

UNIT 2 FINAL TEST SHEET: CATCHING

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · PSI-based · Primary School

Class / School		**Test date**	
Assessor		**Test no. (circle)**	1 2 3 4

Test preparation

- **Equipment:** Soft plastic or rubber ball about 10 cm in diameter.
- **Equipment:** Two lines about 4.5 m apart (student line and tosser line).
- **Area and procedure:** The student stands behind their line. The assessor or tosser throws the ball underhand toward the student's chest.
- **Instruction:** "Catch the ball with both hands." A toss that lands far from the chest is repeated and not scored.
- **Trials:** the assessor demonstrates once, the student performs 1 practice trial (not scored), then 2 scored trials (T1 and T2).

Code	Performance criteria (score 1 if observed, 0 if not observed)
C1	Both hands are positioned in front of the body with elbows bent.
C2	Arms reach out to meet the ball as it arrives.
C3	The ball is caught with the hands only, not trapped against the body.

Adapted from the TGMD-3 two-hand catch skill (Ulrich, 2019).

Grade = Score ÷ 6 × 100 (rounded). Result: M = Mastered (≥ 75) · F = Fair, retest (70-74) · R = Remedial (< 70)

UNIT 3 FINAL TEST SHEET: DRIBBLING (FEET)

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · PSI-based · Primary School

Class / School		**Test date**	
Assessor		**Test no. (circle)**	1 2 3 4

Test preparation

- **Equipment:** Small soccer ball (size 3-4).
- **Equipment:** 5 cones placed in a zig-zag about 1.5 m apart.
- **Equipment:** A start line and a finish line about 10 m apart.
- **Area and procedure:** The student starts at the start line, dribbles the ball in a zig-zag through the cones, then stops the ball on the finish line with the sole of the foot.
- **Instruction:** "Dribble the ball through all the cones, then stop it on the finish line with the sole of your foot."
- **Trials:** the assessor demonstrates once, the student performs 1 practice trial (not scored), then 2 scored trials (T1 and T2).

Code	Performance criteria (score 1 if observed, 0 if not observed)
C1	Touches the ball with the inside or outside of the foot, not with the toes.
C2	Keeps the ball close to the feet (less than one step away) while dribbling.
C3	Lifts the eyes forward from time to time instead of looking down at the ball the whole time.
C4	Turns around the cones without losing the ball, then stops the ball with the sole of the foot.

Grade = Score ÷ 8 × 100 (rounded). Result: M = Mastered (≥ 75) · F = Fair, retest (70-74) · R = Remedial (< 70)

UNIT 4 FINAL TEST SHEET: KICKING

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · PSI-based · Primary School

Class / School		**Test date**	
Assessor		**Test no. (circle)**	1 2 3 4

Test preparation

- **Equipment:** Small soccer ball (size 3–4) or plastic ball about 20–25 cm in diameter.
- **Equipment:** Ball position marker, a run-up line about 3 m behind the ball, and a wall/target about 6 m in front of the ball.
- **Area and procedure:** The ball is placed still on the ground. The student stands at the run-up line, then runs and kicks the ball as hard as possible toward the wall/target.
- **Instruction:** "Run up to the ball and kick it as hard as you can toward the wall."
- **Trials:** the assessor demonstrates once, the student performs 1 practice trial (not scored), then 2 scored trials (T1 and T2).

Code	Performance criteria (score 1 if observed, 0 if not observed)
C1	Makes a fast, continuous run-up to the ball.
C2	Takes a long stride or small leap just before contacting the ball.
C3	Places the non-kicking foot close to the ball.
C4	Kicks the ball with the instep or the inside of the foot, not with the toes.

Adapted from the TGMD-3 kick a stationary ball skill (Ulrich, 2019).

Grade = Score ÷ 8 × 100 (rounded). Result: M = Mastered (≥ 75) · F = Fair, retest (70–74) · R = Remedial (< 70)

UNIT 5 FINAL TEST SHEET: STRIKING

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · PSI-based · Primary School

Class / School		**Test date**	
Assessor		**Test no. (circle)**	1 2 3 4

Test preparation

- **Equipment:** Light plastic bat (or rounders bat).
- **Equipment:** Plastic or rubber ball about 10 cm in diameter.
- **Equipment:** A batting tee (or tall cone) at the student's waist height.
- **Area and procedure:** The ball is placed on the tee at the student's waist height. The student stands sideways next to the tee and hits the ball as hard as possible straight ahead.
- **Instruction:** "Hit the ball as hard as you can straight ahead."
- **Trials:** the assessor demonstrates once, the student performs 1 practice trial (not scored), then 2 scored trials (T1 and T2).

Code	Performance criteria (score 1 if observed, 0 if not observed)
C1	The dominant hand grips the bat above the non-dominant hand.
C2	The non-dominant hip and shoulder face the hitting direction, with feet parallel.
C3	Hips and shoulders rotate during the swing.
C4	Steps toward the hitting direction with the non-dominant foot.
C5	The ball is hit straight ahead.

Adapted from the TGMD-3 two-hand strike of a stationary ball skill (Ulrich, 2019).

Grade = Score ÷ 10 × 100 (rounded). Result: M = Mastered (≥ 75) · F = Fair, retest (70–74) · R = Remedial (< 70)

UNIT 6 FINAL TEST SHEET: THROWING

DILEMATORS (Digital Learning Module for Manipulative Motor Skills) · PSI-based · Primary School

Class / School		**Test date**	
Assessor		**Test no. (circle)**	1 2 3 4

Test preparation

- **Equipment:** Tennis ball or small rubber ball about 6–7 cm in diameter.
- **Equipment:** A throwing line about 6 m from a wall.
- **Area and procedure:** The student stands behind the throwing line facing the wall, then throws the ball as hard as possible with an overhand motion.
- **Instruction:** "Throw the ball as hard as you can at the wall with an overhand swing."
- **Trials:** the assessor demonstrates once, the student performs 1 practice trial (not scored), then 2 scored trials (T1 and T2).

Code	Performance criteria (score 1 if observed, 0 if not observed)
C1	The windup begins with a downward movement of the hand and arm.
C2	Hips and shoulders rotate until the non-throwing side faces the wall.
C3	Steps toward the wall with the foot opposite the throwing hand.
C4	The throwing hand follows through after release, across the body toward the hip on the non-throwing side.

Adapted from the TGMD-3 overhand throw skill (Ulrich, 2019).

Grade = Score ÷ 8 × 100 (rounded). Result: M = Mastered (≥ 75) · F = Fair, retest (70–74) · R = Remedial (< 70)
